

A statement by Iain Mowatt, Chair of Twf HK:

Ada Fung accepts role as President of Hong Kong Temporary Works Forum.

I am very pleased to announce that **Ar Prof Ada FUNG Yin Suen, BBS** has kindly agreed to become the President of the HK-TWf. Please join me in welcoming Ada and I am sure her enthusiasm will greatly assist in defining future objectives and raising the profile of the HK TWf. A brief bio of her considerable achievements is below.

You will remember Ada as the former Deputy Director of Housing at the HKSAR government where she drove the mass volumetric precasting initiative, pay for safety, safety auditing and safety climate index. She promoted design innovation in all dimensions, as she has a track record of championing sustainable development, community engagement, corporate social responsibility, project partnering, quality assurance, value management, risk management, ethical integrity, site safety, green procurement and green building, Building Information Modelling, application of construction IT systems, and product certification in the construction industry.

Following her retirement from civil service, Ada has been in promoting green building movement, construction site safety, BIM development and environmental protection, as evinced by the many activities and public appointments she has both private and public. She is President of Lighthouse Club (HK), Honorary Advisor to the CIOB (HK), Member of External Affairs Advisory Board of CIOB.

Ada is President of Hong Kong Alliance of Built Asset & Environment Information Management Associations (HKABAEIMA) cum Chairperson of Hong Kong Chapter of buildingSMART International, driving open BIM to enable full benefits from digital ways of working in the built asset industry, and fostering societal collaboration for smarter information management across built asset and environment.

Ada will greatly assist in raising the profile of the HK-TWf and bring fresh new ideas to the forum.

Ar Prof Ada FUNG Yin Suen, BBS

Academic Qualifications:

- (1) Bachelor of Arts in Architecture (1st Class Honours) University of Hong Kong 1979
- (2) Bachelor of Architecture (Distinction) University of Hong Kong 1981
